Project Summary

Motivated Dedicated Web Developer with 18 months of hands-on experience in creating sleek and efficient web applications. Proven track record in optimizing systems for enhanced performance, with significant contributions to the UPS Management System Enhancement project. Adept at collaborating with cross-functional teams to deliver user-friendly solutions that improve reliability and efficiency.

Skills Education

- Programming Languages:** .NET, ASP.NET MVC, Java, Python, SQL
- Web Development:** CSS, HTML, JavaScript
- Database:** SQL Server
- Tools & IDEs:** Visual Studio, Eclipse, Maven, GIT
- Cloud technologies:** AWS, Azure
- Development Methodologies:** Agile (Scrum), Test Driven Development
- Operating System - Windows 11
- Communication and Interpersonal Skills

Work Experience

IBM - Hyderabad, India

03/2023 – 08/24

UPS - Computer Facilities

- Designed and developed Java-based applications, ensuring high performance and responsiveness.
- Integrated front-end components using JavaScript, HTML, and CSS to create seamless user experiences.
- Maintained and optimized databases for scalable and efficient data storage.
- Engaged in regular Agile/Scrum meetings, contributing to sprint planning, reviews, and retrospectives.

Contribution: Application Developer

- Assisted in the development of ASP.NET MVC applications, contributing to both frontend and backend components.
- Implemented data access layers using Entity Framework, resulting in a more efficient and maintainable codebase.
- Collaborated with cross-functional teams in an Agile environment to deliver high-quality software solutions.
- Review pull requests, providing constructive feedback to maintain code consistency, performance, and adherence to best practices.
- Contributed to the migration of legacy systems to .NET Core, enhancing system performance and scalability.
- Work closely with the product manager to design and refine new features, aligning development efforts with business goals.
- Debugged and fixed issues in production environments, ensuring minimal downtime.
